Explore Our Native Plant GARDENS

Our counties have many gardens that display examples of California’s native flora. This list includes gardens at schools, parks, and nature centers of the four-county area. The natural areas show how these plants grow in their native communities.

CHICO

CALIFORNIA STATE UNIVERSITY, CHICO
- Native plant restoration along Big Chico Creek
- Get the Campus Creekside Nature Walk brochure at Rm 205 Holt Hall, Dept. of Biological Sciences
- Phenology Garden on east side of Holt Hall
